Special Notice (SN) DARPA-SN-24-118 Human-AI Communication for Deontic Reasoning Devops (CODORD) Disruption Opportunity (DO) Information Session October 8, 2024

The Defense Advanced Research Projects Agency (DARPA) Defense Sciences Office (DSO) is sponsoring an Information Session webcast to provide information to potential proposers on the objectives of the anticipated Human-AI Communication for Deontic Reasoning Devops (CODORD) Disruption Opportunity (DO). The Information Session will be held via prerecorded webcast on October 8, 2024, from 11:00 a.m. to 12:30 p.m. Advance registration is required to attend the webcast. All times listed in this announcement and on the registration website are Eastern Time.

The goals of the CODORD DO Information Session are to (1) introduce the research community (industry, academia, and Government) to the CODORD DO vision and goals and (2) explain the mechanics of a DARPA DO and the milestones of this particular effort. DARPA anticipates releasing the CODORD DO in October 2024. If released, the DO will be available on SAM.gov (https://sam.gov/). After the Information Session, DARPA may post the presented materials and the list of Frequently Asked Questions (FAQ) to the DARPA Opportunities page on darpa.mil.

Disruption Opportunities are released as Solicitation Notices under the Disruptioneering Program Announcement (DARPA-PA-24-04) and are rapid, targeted, limited-scope investments as part of an overall balanced portfolio. The Disruptioneering Program Announcement enables DARPA to initiate a new investment in less than 120 calendar days from idea inception.¹

CODORD OBJECTIVE AND DESCRIPTION

The CODORD program will create new AI-based techniques for humans to <u>author</u> knowledge about deontics (obligations, permissions, and prohibitions) into an expressively flexible logical language in an <u>automated</u> rather than manual fashion and using only <u>natural language</u> (e.g., English) rather than only logical language. It has the potential to enable automated deontic reasoning with high <u>assurance</u>, required for compliance with command orders, regulations, laws, operational policies, ethics, contracts, agreements, and strategies/plans. Mechanized deontic reasoning could become a much more widely practical tool for decision support across a variety of crucial military and commercial applications.

All awards resulting from the CODORD DO and issued under the Disruptioneering Program Announcement will be Other Transactions (OTs) for prototype projects awarded under the authority of 10 U.S.C. § 4022. Potential proposers are highly encouraged to review Section 7 of the Disruptioneering Program Announcement for information on who may be eligible to respond to a Disruption Opportunity. The Disruptioneering Program Announcement is available on SAM.gov under solicitation number DARPA-PA-24-04 (https://sam.gov/opp/cb7a935d59bb4ceeb62b9515f7d9f9b0/view).

¹ For the purposes of this Special Notice, "idea inception" is defined as the date an individual Solicitation Notice (Disruption Opportunity) is posted to https://sam.gov.

Potential proposers may choose to share their information with other registrants via all, some, or none of the following options to discover potential collaboration opportunities:

- 1. Attendee List (limited distribution): Participant contact information (name, organization, email address) will be distributed to all other CODORD Information Session attendees. The registration website will ask registrants to indicate whether they approve distribution of their contact information.
- 2. Proposer Profile (limited distribution): Information session registrants interested in discovering collaboration opportunities for this announcement may submit a one-page teaming profile. The proposer's profile should include their contact information (name, organization, email, telephone number, mailing address, and, if applicable, organization website), a brief description of their technical competencies, and, if applicable, their desired expertise from other teams/organizations. Optionally, additional information can be provided by including links (URLs) in the one-page profile. All profiles must be emailed to CODORD@darpa.mil no later than 1:00 p.m. on October 22, 2024. After this deadline, the consolidated Proposer Profile will be sent via email to Information Session registrants who submitted a valid profile for distribution. Specific content, communications, networking, and team formation are the sole responsibility of the participants. Neither DARPA nor the Department of Defense (DoD) endorse the information and organizations contained in the consolidated Proposer Profile document, nor does DARPA or DoD exercise any responsibility for improper dissemination of the Proposer Profile.

REGISTRATION INFORMATION

The CODORD DO Information Session will be webcast on October 8, 2024, from 11:00 a.m.to 12:30 p.m. There is no registration fee for the Information Session webcast.

Registration opens: As of the publication of this announcement.

Registration website: https://events.sa-meetings.com/CODORDInfoSession

Registration closes: October 4, 2024, at 4:00 p.m. or when capacity is reached, whichever

comes first.

Advance registration via the above website is required to receive access to the webcast, and registration is mandatory for every individual intending to view the webcast either alone or as part of a group.

Registrants in excess of the maximum capacity limitations 350 individuals may be added to a waitlist. Individuals who are unable to register because the deadline has passed may request to be added to the waitlist. If slots become available due to cancellations, the slots may be filled on a first-come, first-served basis from the waitlist.

ELIGIBILITY

DARPA is hosting this Information Session to (1) provide potential proposers with information on whether and how they might respond to the Government's research and development solicitations and (2) increase efficiency in proposal preparation and evaluation. Therefore, this event is open only to registered potential proposers, i.e., the events are closed to the general public and media. In addition, for this Disruption Opportunity, Information Session registration is open to potential proposers who are U.S. citizens, U.S. permanent residents, and foreign nationals.

All registrants who are not U.S. citizens must complete and submit either a DARPA Form 60 (U.S. Permanent Resident and Foreign National Visit Request – for industry or academia) or an Official Visit Request (for foreign government personnel only) through their country's embassy based in Washington, DC, no later than 4:00 p.m. on October 3, 2024. Form 60 submission instructions are provided on the registration website and in the registration confirmation email. Contact your Embassy staff for assistance in submitting the Official Visit Request.

Q&A

Administrative, technical, and contractual questions about the CODORD program should be emailed to CODORD@darpa.mil. All questions must be in English and must include the name and email address of a point of contact. After the Information Session, DARPA may post an FAQ list to the DARPA/DSO Opportunities website.

CONTACT INFORMATION

Please refer to the CODORD Information Session in all correspondence.

- Technical Point of Contact: Benjamin Grosof, Program Manager, <u>CODORD@darpa.mil</u>

DISCLAIMERS AND IMPORTANT NOTES

Viewing the CODORD DO Information Session webcast is voluntary and is not required to propose to the anticipated CODORD DO. Interested parties to this notice are cautioned that nothing herein obligates the Government to issue a solicitation. The Information Session does not constitute a formal solicitation for proposals. This announcement is issued solely for information and planning purposes and is not a Request for Information (RFI). Since this is not an RFI, the Government will not accept submissions against this notice, except for the one-page Proposer Profile referenced above. No classified, International Traffic in Arms Regulations (ITAR) controlled, or proprietary information will be presented by the Government at the Information Session. DARPA will not reimburse costs incurred to participate in this Information Session. Recording the Information Session webcast is not permitted.

For those new to DARPA or national security, DARPA makes available a free, comprehensive resource via DARPAConnect on how to do business with the agency. In addition to DARPA 101 materials, relevant preparatory modules include "Making the Most of a Proposers Day" and "Understanding DARPA Broad Agency Announcements." Registration and access are free at www.darpaconnect.us.
